Tim discussed 2 revisions made to the maps in the Plan---adding a data source to all the 8.5x11 maps in the document, plus minor changes to the 16 River panel maps (consolidation of some features [state/federal wetlands] and adding data sources)

The River Board reviewed and discussed FC's suggested edits to chapters 6 (land use), 8 (recreation), and 10 (river resource protection area) and added a few additional changes that were agreed to by consensus.

The River Board then reviewed and discussed the CC Staff's edits to chapters 3 (physical environment), 6 (land use), 8 (recreation), 9 (water quality), and 10 (river resource protection area) and made minor alterations to several sections in the red-lined, CC versions of the June draft plan. The River Board agreed to these changes and also unanimously agreed to retain Chapter 10 (River Resource Protection Area) that was recommended for deletion by CC.

The CC Planning Director comments on the June draft plan were not reviewed. It was agreed that they would be discussed and reviewed during September's meeting.

Tim stated that all of the revisions and edits made by the River Board at the August meeting would be incorporated into the document, but printed out for all River Board members to see at the September 2016 meeting.

Meeting adjourned at 8:45pm.
